DAILY PITTSBURGH GAZETTE.

TUESDAY AFTERNOON. DEC. 31, 1833.

A SUGGESTION.—We observe, by some of the eastern papers, that serious doubts are entertained whether loans will be obtained to continue our improvements next year; and fears are even expressed, by some of those papers, that the last loan will not all be paid.—Under these circumstances we would suggest the propriety of procuring an express direction, by law, that if there should be any doubt about procuring the whole amount of loans required, during the ensuing year, that the Portage and Columbia Rail Roads should, at all events, be completed; and, that, in the contingency spoken of, the work, on all extensions and branches, should be suspended.—The propriety of this course need only be mentioned to be approved.

THE UNITED STATES' BANK.—We publish, to day, a vote in relation to this institution, and ask our readers to notice the remarkable unanimity with which the New York delegation went together in their hostility to a bank located in Pennsylvania. *Thirty* votes in opposition to the Bank, and only *eight* in favor. Will any man believe that this hostility would have existed, if this bank had been located in the "Empire State."

New York has *now* a double interest in breaking down the Bank. If she succeeds in her designs, it will not be many years before it will become necessary to recharter another similar institution, and she may well hope, by her overwhelming numbers, to secure the location of the mother bank in her own city.—Besides this, Pennsylvania is now making rapid progress in her great scheme of internal improvements, and, in the course of a very few years, may expect to exclude New York entirely from participation in the trade of the great West.—The removal of the deposits, and the destruction of the United States' Bank will, inevitably, produce distress and embarrassment, and throw difficulty in the way of procuring the necessary funds for the completion of our improvements, and thus secure to New York a little longer the advantage she now enjoys.—It is, therefore, not at all strange that the delegation from that State should advocate measures having this tendency, but it is wonderful indeed that Pennsylvanians should be so far lost to State pride, so blinded to their own interests, as to aid the schemes of their designing neighbors.

CHESAPEAKE AND OHIO CANAL.

HAGERSTOWN, Dec. 26.

We understand that Alfred Cruger, Esq. Chief Engineer on the Chesapeake and Ohio Canal, is now engaged, with a corps of Engineers, in locating the Canal above the dam at Middlekauff's, preparatory to an extension of the work above that point; and that, in consequence of the heavy damages for the acquisition of the right of way thro' Washington county, he is instructed to make a location on both shores of the Potomac; and, should the right of way be obtained in Virginia upon better terms than in Maryland, to report the fact to the Canal Company, and the Canal will then be carried over to the Virginia shore.

The Chesapeake and Ohio Canal having been completed as far as Harper's Ferry, and it being possible that early in the course of next summer it will be in successful operation to a point above Williamsport—it may not be improper, at this time, to call public attention to the importance of the improvement of the Antietam, either by canal or slack water navigation, from the Canal to as high a point as may be deemed practicable and expedient—say to Hagerstown, or even to the Pennsylvania line. And we do not know that we can more forcibly illustrate the importance of the proposed improvement, than by adverting to some facts derived from experience on the newly opened canal from Harper's Ferry to the District of Columbia. We learn that the canal has been open, without a day's intermission, for six weeks; and that a brisk trade is moving upon it; the price of transportation has fallen from $1, and $1 25, to 25 cents per barrel of flour; and that when boats of the dimensions permitted by the size of the canal and its locks are substituted for the narrow keel boats of the river, now used, and when the tariff of tolls is regulated according to the terms of the charter of the Chesapeake and Ohio Canal Company, instead of those of the old Potomac Company, the price of transportation will be less than it now is, by several cents a barrel.

The millers in the neighborhood of the canal can now afford to give 15 cents a bushel more to the farmer for his wheat, than they could before the use of the canal reduced the cost of transportation. It is of no consequence what the price of flour may be in the markets on tide water, there will always exist that difference in the price of grain, in consequence of the reduction of the cost of getting the flour to market. The same may be said with regard to the return freights of merchandise, plaster, salt, fish, &c. &c.

The following are some of the benefits that may be expected to result from the further prosecution of the Chesapeake and Ohio Canal westward.—The lumber of the upper country on the Potomac will find a ready market and an easy access to it by the Canal, and the Coal will be a source of wealth to all those upon whose lands it may be discovered, while the lower portion of the State will be blessed in a corresponding degree by its use. The plaster from the East will be brought back in exchange, invigorating and fertilizing the meagre soil of the uplands; the canal thus imparting a double advantage, enabling the proprietors in the upper country to dispose of, profitably, that which is to them now useless, and to obtain that which they never otherwise would have been able to, and will render their land doubly valuable for agricultural purposes.—*Torch Light.*

From the Baltimore American.

LOUISIANA.

The Legislature of Louisiana met at New Orleans on the 10th inst. The message of Governor Roman was transmitted on the same day. A resolution was promptly adopted, appointing the 13th for the election of a Senator in Congress, in place of the late Josiah S. Johnson. The candidates are Wm. H. Overton, R. C. Nicholas, and Judge Porter.

The message of the Governor contains an interesting view of the condition, products, exports, and industry of the State, its public works, revenues, and proper policy. Some of these items of information we subjoin.

He estimates the exports of New Orleans, for the year 1834, at $34,700,000, as follows:—Cotton, 450,000 bales, at $55, $24,750,000; Tobacco, 30,000 hhds., at $40, $1,200,000; Sugar, 70,00 hhds., at $65, $4,550,000; Molasses, 3,500,000 gallons, at 20 cts.. $700,000; and $5,500,000 for Western produce, from the sum of which he deducts $2,00,000 for home consumption—leaving the aggregate as above.

The share of Louisiana, proper, in these products and their profits, he puts down at $20,150,000—a sum approaching to three fifths of the whole export of the Valley of the Mississippi, carried through that port.—He considers the city of New Orleans as reaping a profit from this trade, equal to one third of the entire industry of the State. Well may he add—"Our commerce has never been more flourishing, and New Orleans, where edifices of the value of more than two millions of dollars are now rising up, is every day acquiring a development worthy of the city which must be considered not only the capital of Louisiana, but of the whole valley of the Mississippi."

He speaks confidently of the safety of Louisiana from any bad consequences growing out of the policy adopted lately in England, with regard to the West Indies. These colonies, he thinks, will produce less sugar, and thus will compensate the sugar planter of Louisiana for the diminution of the duty under the Tariff act of 1833. All apprehensions of danger from the slave population he considers idle. "Indeed," he adds, "London and Paris have more to fear, than New Orleans."

Among numerous works of internal improvement to which the Message makes reference, we remark, as the most important, the completion of the Barrataria and La Fourche Canal, which establishes an uninterrupted communication between the Mississippi and the Bay of Barrataria. In less than two months, the lock will be opened and Steam Boats will be enabled to navigate between New Orleans and the coast of Mexico. The second line of canals, intended to unite the Lafourche with the Mississippi, so as to transport to New Orleans, in less than six hours, the produce of Lafourche Interior, will probably be completed in the course of the next year. Another year will be sufficient to carry it as far as Attakapas. While the coasts of Mexico are thus brought within twenty four hours sail of New Orleans, the removal of the obstructions in the Red River will open to the same favored point, the commerce of the interior of that vast empire.

The Finances of the State are reported to be in a prosperous condition. The receipts during the current year amount to $482,377 99, and the expenditures to $394,659 30—leaving a balance of $87,718 69, liable, however, for unsatisfied appropriations.

Bonds to the amount of $496,000 have been paid during the year, on their falling due, and a further amount of $600,000 will come due in July. The funds appropriated for their payment are ample, leaving a surplus of nearly $260,000.

The deplorable accidents by the explosions of steam boat boilers, are noticed with some severity. The Governor recommends immediate legislation, and suggests the expediency of subjecting steam boats and their machinery to a regular and rigid inspection, and also of providing for the forfeiture to the State of any steam boat on board of which gun powder shall be received, without giving public notice to the passengers before their embarking.

LATER FROM PORTUGAL.

The brig Pocket, Captain Gage, arrived here this morning from Oporto, which place he left on the 19th of November, but he brings no important intelligence respecting the operations of the belligerent brothers. The war continued to linger—but with evident feebleness on both sides. The Miguelites had made an attack upon Oporto, and, although successful at the onset, were driven back, but with no great loss. Captain G. states the Miguelites were encamped about one league from Oporto, and consisted of about 1,500 strong.—There were from 4 to 5,000 soldiers in Oporto, including volunteers—but although Don Pedro has men enough to garrison the places in his possession, they were too few to justify offensive operations, or to scour the country of his enemies.

FROM JAMAICA.

We are in possession of a file of the Kingston Commercial Advertiser, to the 14th of November. The meteoric shower that was observed all over this country, is thus noticed in the paper alluded to:—"Early yesterday morning a most beautiful phenomenon was visible in the heavens, in the shape of meteors, successively bursting from the zenith to fifteen degrees of the horizon. The coruscations were continual, and the nebulæ formed by them lasted for several seconds, assuming the appearance of the tail of a sky rocket. They also reminded us of the activity of the Aurora Borealis, or like shoals of dolphins, sporting and minutely rising from the ocean. One meteor was uncommonly large, and at one time appeared stationary. Perhaps a sight so magnificent may not again happen for many years."

From the New York Journal of Commerce.

LATEST FROM PORTUGAL.

By the brig Pocket, Captain Gage, we have received Oporto papers to Nov. 18th, inclusive, containing dates to the 9th. The dates from the former place are about a fortnight later than before received; from the latter 6 days.

There had been no important occurrence of late, at Oporto. Capt. Gage informs us that the enemy were hurrying about the town in large numbers, and an attack was expected. General Stubbs, who is in command of the town, had but 2,000 regulars, and 30 cavalry. The Miguelites had 3,900 infantry at San Thirso, three leagues to the North East of Oporto; 2,150 at Balthar and Penafiel, and 30 cavalry at Villa Nova, besides hordes of guerillas, who, hovering upon the mountains, are ready to descend at a moment's notice, and commence the work of murder and plunder.

On the morning of the 15th, about day light, a gang of persons dressed like *Miguelite guerillas*, were discovered in Oporto by the guard a picquet, ten of them in a line in the middle of St. Cosme street, and others posted behind the houses. One of the guard was killed by an unexpected discharge from those in the street. Those behind the houses fired several times. The affair was not fully explained, but it appears to have created a considerable sensation. A supplement to the Chronica, of Nov. 15th, is wholly occupied with the subject.

OPORTO, Nov. 16.—We yesterday received two mails from Lisbon, bringing papers and letters from the 3d to the 9th inst. The most interesting particulars are annexed.

LISBON, Nov. 6.—His Imperial Majesty, the Duke of Braganza, departed for the army this day, at half past 6 o'clock, accompanied by several persons of distinction.

LISBON, Nov. 8.—At half past 6, last evening, His Imperial Majesty arrived at the Arsenal, where he was received by the Liberating Army with the greatest enthusiasm.

LISBON, Nov. 5.—Day before yesterday, Colonel Lemos assembled all the forces under his command, amounting to 1,500 infantry, and 150 cavalry, and, at day break, attacked our troops at Alcacer do Sal, viz., 200 regulars, 200 volunteers, and 26 cavalry. Notwithstanding the inferiority of numbers the resistance was obstinate, but our troops being charged by the enemy's cavalry, were at length obliged to abandon the field—part of them retiring to Palmella, and part to St. Ubes. Almost all succeeded in reaching one place or the other, and the enemy did not venture to leave Alcacer do Sal.

That most interesting place, Palmella, is completely fortified and garrisoned, having an abundance of ammunition and provisions; and, at St. Ubes, the troops which left the Tagus on the evening of the 3d, together with a division of the fleet, will arrive this morning.

A short time before the rebels entered Alcacer, a division of their forces, which was at Aldea di St. Luis, 6 leagues south of Sinnes, was completely defeated, by a column of the constitutional army, who left the latter town on the evening of the 21st Oct., and, at day break, on the 1st inst., attacked them with such vigor, that, after a slight resistance, they abandoned the place, leaving 86 dead, and a great quantity of bread and other provisions in our hands. The Major, of St. Ubes, who took part in the engagement, extols, above measure, the conduct of our troops.

The following anecdote is told in a late number of the London Morning Chronicle:—

"Every one who has been upwards of twenty years in London must remember an Irishman of Herculean frame, Felix M'Carthy, the intimate of Lord Moira, Sheridan, and others. A newspaper was set up in London for the express purpose of libelling, and Felix was hired by the real Editors, for about three guineas and a half a week, to assume the responsibility. He sat behind the counter, and when any one of the hundred offended individuals entered the office, and with much bluster, exhibiting a horsewhip, demanded the Editor—on Felix rising up, and exhibiting his seven feet stature and broad shoulders, and coolly observing 'I am the Editor,' the party with the horsewhip usually decamped without beat of drum. The moral is not very honorable to poor human nature. The requisites to success in life are, a good deal of audacity, supported by force, and very little sensibility."

"To assume the responsibility"! How naturally the phrase now sounds to an American ear!—We have learnt that a President may be used by a Cabal, in a way akin to the employment of the colossal Felix. President Jackson's popularity and temper are the means which the Kitchen Cabinet employ to bully Congress:—counting upon them and the influences of official patronage to which the disposal of many millions of revenue is now monstrously added, they set no bounds to their "audacity" and scurrility.—*Nat. Gaz.*

FROM LIBERIA.

By a late arrival, we have received a file of the Liberia Herald, from which we learn, with regret, the decease of Francis Devany, Esq., on the 11th of September. He was a colored man—originally a slave, belonging to Langdon Cheves, Esq., of Charleston, S. C., emigrated to Liberia at an early period of its settlement. For many years past, he has been engaged in commerce, and had accumulated a handsome fortune by his industry, perseverance, and enterprize, when his earthly career was arrested in the thirty sixth year of his age. His disorder was consumption, and Liberia will have occasion to regret, in him, the loss of one of its most valuable citizens. He held, for some time, the office of High Sheriff of the Colony, and, in the various relations of life, sustained and deserved the reputation of an honest and honorable man. When in this country, a few years ago, he bore evidence, before a committee of the United States, to the favorable prospects afforded to emigrants by the Liberia settlement.

The French ship, Charles of Havre, run ashore off Grand Bassa, on the 28th of August, and the vessel and cargo were wholly lost. The crew, consisting of 34 men, were saved, with the exception of one—but every thing they could lay their hands on, was taken by the natives. The survivors all reached Monrovia, where they were treated with great kindness and hospitality, and, should no other opportunity be presented, the Agency schooner, Margaret Mercer, was to be despatched to convey them to Goree.

Two elephants had been killed on the right bank of the St. Paul's river, within two miles of Millsburg. Their flesh was considered as a great treat by the natives.

We are pleased to observe in the Herald, very copious extracts from the Albany Temperance Recorder.

At our earliest convenience, we propose to republish, from the Herald, the letter of a resident of Liberia, addressed to Daniel Noyes, Esq., of Boston, giving an interesting account of the natives of that region—their habits and customs—and which evinces the strong and obvious duty, resting upon the civilized community, to attempt more strenuously than ever, the illumination of Africa.—*N. Y. Com. Adv.*

LOTTERIES.

As the Law for the Abolition of all Lotteries within this State, takes effect from and after the last day of this month, and having heard that our public authorities intend strictly to enforce it, it may not be amiss to republish it, for the information of our citizens generally, as well as for those immediately interested in Lotteries. A.

An Act for the Abolition of Lotteries—Passed the first day of March, 1833.

Whereas, by certain acts of Assembly, heretofore enacted, the right to rise, by way of lottery, certain sums of money, was granted to the Union Canal Company of Pennsylvania: And whereas, it appears to the Legislature that the said right has been fully exercised and exhausted: And whereas, all other rights to raise money by lottery, heretofore granted by the Legislature have either been exercised or exhausted, or have been abandoned, and it being the intention of the Legislature to put an entire stop to the evils arising from Lotteries, and the sale of Lottery tickets:

Section 1. Be it enacted, by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same: That from and after the thirty first day of December, one thousand eight hundred and thirty three, all and every lottery and lotteries, and device or devices in the nature of lotteries, shall be utterly and entirely abolished, and are hereby declared to be thenceforth unauthorized and unlawful.

Sect. 2. And be it further enacted by the authority aforesaid, That from and after the day aforesaid, any person or persons who shall sell or expose to sale, or cause to be sold or exposed to sales, or shall keep on hand for the purpose of sale, or shall advertise or cause to be advertised for sale, or shall aid or assist, or be in any wise concerned in the sale, or exposure to sale, of any lottery ticket or tickets, or any share or part of any lottery ticket, in any lottery, or device in the nature of a lottery, within this commonwealth, or elsewhere; and any person or persons who shall advertise or cause to be advertised, the drawing of any scheme in any lottery, or be in any way concerned in the managing, conducting, carrying on, or drawing of any lottery, or device, in the nature of a lottery, and shall be convicted thereof, in any court of competent jurisdiction, shall, for each and every such offence, forfeit and pay a sum not less than one hundred dollars, and not exceeding ten thousand dollars, or be sentenced to undergo an imprisonment, not exceeding six months, at the discretion of the court.

We are glad to find that the Committee (of the House of Representatives) on Internal Improvement have reported (unanimously) a bill authorizing an additional subscription, by the U. States, to the amount of one million of dollars, to the Stock of the Chesapeake and Ohio Canal Company.—*Nat. Intel.*

"*This breathing world.*"—It is stated, in foreign prints, that an ingenious Parisian has invented a substance which, in color, firmness, and elasticity, exactly resembles human flesh. That he might display the virtues of his discovery to advantage, he has modelled a figure of the emperor Napoleon, who is represented as reclining on a couch, apparently asleep. The motion of respiration is so closely imitated, as to give to the figure the appearance of *breathing*, as though in a gentle slumber. Though this effect is merely mechanical, it is said greatly to assist the illusion. The inventor declares his object to be that of furnishing models of the human figure, busts, or any other portions, either in a healthy or morbid state, resembling life as nearly as possible. It may therefore be of service to the medical profession, to the proprietors of anatomical museums, &c., and may also be made to serve a useful purpose in the preservation of family likenesses, and fac similes of uncommon beings of the human species. But the idea of exhibiting a breathing picture of Bonaparte is perfectly French. No one else—except perhaps some yankee—would have thought of blowing up a dead emperor in this style, and showing forth an image of the world's conqueror with a bellows in his belly!—*Nantucket Inquirer.*

Lunatics.—Instead of a lunatic asylum, the province of Antwerp possesses a lunatic village. It is called Gheel, and the poor creatures are allowed to roam at large in it, and where their infirmity does not incapaciate, the inhabitants give them work. Many districts in the Netherlands send their lunatics to reside in this village, and pay for their board and clothing. It has been found that where one cure is effected under confinement, ten are brought about by kindness and absence of coercion.

Vote on the U. S. Bank.—The following is the vote, by States, in the House of Representatives, on Tuesday, 17th inst. on Mr. Polk's motion to reconsider the vote by which the subject of the Removal of the Deposits from the United States Bank was referred to the Committee of the Whole.

Ter giversation.—The following development, we understand, was lately made by the Committee on Privileges and Elections, touching the question between Messrs. Moore & Letcher to a seat in the House of Representatives. The witness, who replied to the interrogatory, escapes the legal consequences of *perjury* by the acknowledgment of a *fraud*.

Question.—Did or did not your brother, who was and is a minor, tell you that he had sworn (in order to vote,) that he was *above* twenty one years old.

Answer.—No' My brother told me that he had written the figures 21 on a slip of paper, which he put in his shoe, and swore he was *above* 21.

We do not deem it necessary, says the U. S. Telegraph, to state *who he voted for.*

Colonel Crocket's Conundrums.—"Why," says Colonel David Crockett, the other day, to the honorable Henry Hubbard, one of Isaac Hill's representatives, and a member of the committee of Ways and Means—"Why is the Committee of Ways and Means like a tad pole?" "Really, Col., says the honorable Harry, that's a poser—I can't answer"—"I thought so—says the Colonel—well, I'll tell you why. Because its big in the middle, and leetle at both eends."

The Colonel's illustration will be fully understood by giving the names of the Committee, to wit: Messrs. polk, Cambreleng, McKim, WILDE, BINNEY, GORHAM, Lyall, McKinley, hubbard.

Gold.—We have the most flattering accounts of the Gold Region of Alabama. The Georgia Democrat states, that it "averages forty miles in width, and the gold is said to be of the fineness of twenty three and a half carats. The Coosa river runs through the district for a hundred miles, and affords deposits of gold in abundance. With very careless work and slight machinery, these deposits yield from one and a half to two and a half pennyweights a day. The vein hill mines have not been touched, and little of the deposits have been fully examined."

We have had an opportunity of examining some beautiful specimens of the Gold Ore of Virginia. They were brought to this city by Mr. Jackson, of Fredericksburgh, as they were taken from the "United States Mining Company, in Spottsylvania county," about ten miles above Fredericksburgh. On the tract of land which the Company own, there are two mines. The gold is found embedded in quartz. In all the specimens we have seen, the particles of gold are interspersed through the quartz (a species of flint) and in some of them, are rich and beautiful efflorescences. They have all the appearance of being rich in metal. The reader will recollect Mr. Featherstonhaugh's statement, that in some of the veins and deposits in the Gold Region of Virginia, the quartz contains from ten to forty per cent. in weight of native gold, so pure as to rise as high as twenty three to twenty three and a half carats.—*Richmond Whig.*

ALEXANDER PORTER was, on the 13th instant, elected a Senator of the U. States from the State of Louisiana, to fill the vacancy occasioned by the decease of her late distinguished Senator. The votes taken in joint ballot of the Legislature, were two in number, as follows:

	First.	*Second.*
For Judge Porter	31	32
Mr. Walker	30	30
Mr. Nicholas	1	

Mr. PORTER was the National Republican, and Mr. WALKER the Jackson, candidate.—*Nat. Int.*

We find the following in the Baltimore Gazette of December 26, which we copy, without being able to throw any light on the dubious disclose which it involves:—*Nat. Intel.*

J. APPLETON'S LATE IMPROVED

WASHING MACHINE.

THIS valuable improvement has been preferred by all who have used it to any other machine of the kind yet offered to the public.—It is expeditious, without injuring the clothes washed, as will be seen in the certificates below. All those who wish to save labor in washing, will please to call and see the operation, at the Masinon House, corner of Wood and Fifth streets. Machines, and the right of counties for sale—Machines 12 dollars—and at any persons service for trial. Dec. 31, 1833.

We have had in use Appleton's Patent Washing Machine, and do not hesitate to say that it is preferable to any that we have seen or used. A woman can wash as much in one day, with the machine, as she could in three by the hand, and only half the soap is necessary. We think it clears the clothes better than hand washing, without injury to them. We have also used Barnes' Patent Steam Washing Machine, called Peg Machine, but give Appleton's the preference. It washes cleaner and faster; therefore we recommend Appleton's Machine to the public in general.

Lucy Higginbotham, | Elizabeth McKim.
Robert Poore, |

We have in use Appleton's Patent Washing Machine. It is so simple in its construction that it may be used by any unskilful hand, and we do recommend it as a great saving of time and labor.

Hamilton County Agricultural Society.

It is hereby certified, that the Judges, appointed by the Hamilton County Agricultural Society, for the exhibition, held at Mill Creek, on the second of October, 1833, having awarded that Appleton's Washing Machine, submitted to the Society, on trial, appeared to their satisfaction to be of utility as a labor saving machine in domestic economy—they unhesitatingly recommend it to their fellow citizens—in testimony whereof, this Certificate is given. FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land containing		330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40

other lots, containing about 6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve; is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
